

Dr. Akihiko Ikeda has moved to The University of Electro-Communications

Dr. Akihiko Ikeda who was a research associate of the Y. Matsuda Group has moved to The University of Electro-Communications (UEC) on November 1st, 2021. He has been engaged in research in ultrahigh magnetic fields for 8 years and 7 months since April 1st, 2013. He is now a PI and has his own group. He will supervise students at UEC from next April. We hope he will be creating a nice research group there.
