

New members come

We are pleased to announce the addition of three new members to the Tokunaga Lab. this spring.

Dr. Akiyoshi Yamada from the University of Electro-Communications will join as a postdoctoral researcher and conduct theoretical and experimental research in two-way studies.

Two new M1 students, Mr. Zhisheng Wu from the University of Science and Technology of China and Mr. Yuma Yamaguchi from Waseda University, will join us. Mr. Wu will develop a thermoelectric measurement system in pulsed magnetic fields and use it to study magneto-thermoelectric phenomena in semimetals and semiconductors. Mr. Yamaguchi plans to study field-induced phase transitions in BiSb alloys in the extreme quantum limit.

The entire group members will get together in May. Please look forward to their future activities.
