

# Dr. Yamada move to Kobe

---

In addition to Mr. Qian Chen, introduced last month, Dr. Akiyoshi Yamada, a research fellow of the Tokunaga Lab, will move out at the end of September. In October, he will start his new career as a project assistant professor at Kobe University. Here is a message from Dr. Yamada.

"I am pleased to announce that I am moving to the Graduate School of Science, Kobe University. I have had the opportunity to gain various valuable experiences at ISSP and a lot of research experience in a stimulating life. Although I have not been able to repay all the kindnesses everyone gave me in the high-field lab, I will be pleased to collaborate with your research from the theoretical side. I look forward to working with you in the future."

We look forward to his further success in the future.
